Hunter Visitors

Federal Mogul

Federal Mogul Field Trainers led by Manager of Technical Information Tom Martin, (front row, eighth from left) visited Hunter's St. Louis Research and Training Center for update training on alignment equipment and all new Hunter products.

Hunter Highlights

StraightTrak[™] LFM, Exclusive GSP9700 Feature, **Eliminates Tire-Related Drift and Pull!**

OtraightTrak™ Lateral Force Measurement is a new, Hunter-exclusive GSP9700 Vibration Control System feature that measures tire-related drift and pull and provides corrective measures to minimize or eliminate it. StraightTrak LFM measures each tire's lateral force when rolling. It then suggests placement of each tire about the vehicle in a way that minimizes these forces.

ACDelco

Hunter Field Training Manager Roger Creason, led ACDelco Market Area Service Managers through a week-long alignment and product training program. The ACDelco managers represent their products to manufacturers, service shops and retailers. ACDelco parts are available through the PartFinder feature in Hunter's WinAlign Alignment Software.

Impala SS Car Club of America

National ISSCA Treasurer Bill Harper (left) and St. Louis area chapter president **Jose Hernandez** (right) recently presented Hunter product manager Dave Scribner with an Honorary Lifetime Membership. Scribner, also an Impala SS owner, has provided technical support and service seminars to the nationwide organization.

to minimize or eliminate tire-related drift and pull.

StraightTrak Lateral Force Measurement, combined with proper alignment, balance and GSP9700 radial force measurement service, gives shops an additional tool to solve more customer problems.

Hunter Parts and Accessories Catalogs Now Online

Hunter Tire Changer Accessories heel Balancer Access d Attermarket Kits HUNTER HUNTER

Shops can now conveniently access Hunter equipment parts and accessories catalogs via the Internet. By visiting www.hunter.com shop staff can identify helpful parts, tools and accessories that can be used to handle a wider range of jobs and earn more profits. The catalogs are arranged by product type and provide a detailed

description of each part and accessory. They can be accessed by simply selecting "Products" and then "Accessories" from within the Hunter Web site home page menu. From there, the needed parts and accessories can be viewed and a Hunter Representative automatically contacted for pricing and availability.
